

CALL FOR PAPERS

AutomotiveUI 2025: The 17th International ACM Conference on Automotive User Interfaces and Interactive Vehicular Applications

Brisbane, Australia

September, Sat 20 – Wed 24, 2025 (with Doctoral Colloquium on Sep 19, 2025)

<https://www.auto-ui.org/25/>

AutomotiveUI is the premier forum for human factors and UI/UX research in the automotive/mobility domain. AutomotiveUI brings together researchers and practitioners interested in technical and human aspects of vehicular user interfaces and applications.

AutomotiveUI is seeking contributions that address topics like novel vehicle user interfaces, models of and concepts for enhancing the driver experience, performance and behavior, and state-of-the-art vehicle technology and automated driving systems. In 2025, our theme will be “happy mobility”, where we want to invite contributions that tackle the wider range of challenges in automotive UI research (for details on what we expect and a complete inventory of subjects being considered, please visit the [AutomotiveUI 2025 website](#)).

AutomotiveUI 2025 invites you to submit original work in one or more of the following formats: Full papers, Work in progress, Workshops, Tutorials, Videos, Demos, and Doctoral colloquium. Submissions for all tracks will be available through the [PCS conference management system](#).
